Recommendation

For long-term institutional stability and professional digital governance, AgniLabs recommends the following structured engagement:

- **Initial One-Time Investment: 130,000 BDT**
(Includes complete Website Development Package with 3-Year Infrastructure coverage + Social Media Setup)
- **Ongoing Monthly Digital Management (any of the followings)**
 - 5,000 BDT - Basic Care Plan
 - 8,000 BDT - Growth Plan
 - 10,000 BDT - Premium Digital Partner Plan

Terms & Conditions

1. Payment Structure

- Fifty percent (50%) of the total approved project amount shall be payable in advance prior to commencement of work.
- The remaining fifty percent (50%) shall be payable prior to final project handover and deployment.
- Project delivery and access transfer will proceed upon full settlement of the agreed amount.

2. Project Handover

Project handover, including source code and administrative access, will be completed upon full payment clearance. Hosting and email services will remain managed by AgniLabs during the subscribed service period.

3. Domain Management

The domain will be managed by AgniLabs on behalf of the client and shall remain renewable as per the applicable renewal cycle.

4. Maintenance Services

Ongoing maintenance and technical support are not included in the base package and may be availed separately under a structured maintenance agreement.

5. Post-Deployment Support

Seven (7) days of complimentary bug-fixing support will be provided following project handover. This support excludes feature enhancements, design modifications, or additional development requests.

6. Renewal Policy

After completion of the initial three-year term, renewal of domain, hosting, and email services will require payment of the applicable renewal fee at that time.

7. Refund Policy

All payments made are non-refundable once development work has commenced, as project resources are allocated exclusively for the client.

8. Third-Party Integrations

Integration of third-party services, including payment gateways (e.g., SSLCommerz, ShurjoPay), may be implemented upon request and will incur additional charges depending on scope and configuration requirements.
